

CampusEats - Capability List

CS 543 - Web Services | Design Assignment

Based on the Assignment 1 brief and the CampusEats Design Benchmark, the system capabilities are the distinct jobs the system performs.

No.	Capability (Verb)	What the system does
1	Register	Create a new user account.
2	Login	Authenticate an existing user.
3	View Menu	Display available menus and food items.
4	Search Food	Search for food items.
5	View Food Item	Display details of a selected food item.
6	Place Order	Create an order for selected food items.
7	Update Order	Modify an existing order.
8	Cancel Order	Cancel an existing order.
9	Manage Menu	Create, update, or remove menu information.
10	Manage Food Services	Manage food-service information.

Summary: CampusEats has 10 explicitly listed capabilities covering user authentication, catalogue browsing and management, and order management.
